PRODUCT!

## Heyco® Helios® Edge Clip

- All New Helios Edge Clip mounts onto a 1- 3 mm panel thickness range, typical on solar panel frames.
- Edge clip pushes over the edge of the panel for a strong and secure mount without the need for a mounting hole!
- Plastic wire management insulates cables from the aluminum solar panel frames directly addressing needs of UL 3741.
- Holds up to 2 cables between .230" - .315" (5,8 - 8,0 mm) each.
- Cables install with fingertip pressure.
- Design provides high axial retention with one cable and even higher retention with both cable bays filled.

PANEL THICKNESS RANGE				WIRE DIAMETER RANGE 1-2 Wires	PART NO.	DESCRIPTION
Minimum in.	mm.	Maximum in.	mm.			
.04	1,0	.12	3,0	.230 (5,8 mm) - .315 (8,0 mm) each cable	<b>S6555</b>	Helios EC13 – 100 Pack
